

COMPREHENSIVE PAIN EDUCATION

COURSE 1, OCTOBER 6 - 9

AGENDA

PRE-RECORDED	Multimodal concept in pain medicine	Athmaja Thottungal, MD
	Fluoroscopy safety Dos and Don'ts	Thais K. Vanetti, MD
	Antithrombotic therapy-main considerations	Andre Marques Mansano, MD
	Principles of radiofrequency (mechanisms and indications)	Harold Cordner, MD
	Introduction to ultrasound in pain medicine, tissue recognition, and diagnostic use of ultrasound	Agnes Stogicza, MD
	US of the hip and knee	Pranab Kumar, MD

DAY 1 - 6 OCTOBER

8-8.20am	Welcome, introduction, goals and requirements		
8.20-8.40am	3(-5) most common low back pain diagnoses and ways to recognize them.	Lecture	Agnes Stogicza, MD
8.40-9am	Lumbar facet pain: epidemiology, diagnosis and treatment	Lecture	Victor Silva, MD
9-9.30am	Lumbar medial branch block (live procedure demo and patient discussion)	Live procedure demo	Agnes Stogicza, MD
9.30-9.50am	The role of imaging in chronic low back pain - practical guide	Lecture	Hamza Lari, MD
9.50-10.10am	US of the lumbar spine and pelvis	Lecture	Raja Reddi, MD
10.10-10.40am	COFFEE BREAK		
10.40-11.40am	Diagnostic evaluation, history taking and understanding the mechanism of injury - US scan of lumbar spine	Workshop	Andrea Trescot, MD
11.40am-12.40pm	3(-5) most common low back diagnoses and ways to recognize them on imaging - US scan of hip, abdomen	Workshop	Hamza Lari, MD
12.40-1.40pm	LUNCH		
1.40-2.40pm	Lumbar spine fluoroanatomy and targets for interventional procedures (images and MCQ discussed)	Workshop	Thais K. Vanetti, MD
2.40-3.40pm	Lumbar spine/hip anatomy, landmarking - US scan of pelvis	Workshop	Agnes Stogicza, MD
3.40-4.10pm	COFFEE BREAK		
4.10-4.30pm	Sacroiliac pain: epidemiology, diagnosis and treatment	Lecture	Pranab Kumar, MD
4.30-5pm	SI and/or Lumbar facet denervation (live procedure demo and patient discussion)	Live procedure demo	Agnes Stogicza, MD

DAY 2 - 7 OCTOBER

8-8.20am	Epidurals of the Lumbar spine (Transforaminal, caudal, interlaminar)	Lecture	Lucian M. Macrea, MD
8.20-8.40am	Discogenic low back pain, discography, intradiscal therapies	Lecture	Liong Liem, MD
8.40-9.10am	Discography, intradiscal PRP or BMC (live procedure demo)	Live procedure demo	Agnes Stogicza, MD
9.10-9.30am	Most common knee pathologies, their diagnosis and treatment	Lecture	Victor Silva, MD
9.30-9.50am	Most common hip pathologies, their diagnosis and treatment	Lecture	Raja Reddi, MD
9.50-10.10am	The transformed neurosurgeon's view on pain management. So, when do you need one?	Lecture	Nicole Porz, MD
10.10-10.40am	COFFEE BREAK		
10.40-11.40am	Diagnostic evaluation, history taking and understanding the mechanism of injury + US STATIONS - US scan of lumbar spine	Workshop	Andrea Trescot, MD & US Faculty
11.40am-12.40pm	3(-5) most common low back diagnoses and ways to recognize them on imaging US STATIONS - US scan of hip, abdomen	Workshop	Hamza Lari, MD & US Faculty
12.40-1.40pm	LUNCH		
1.40-2.40pm	Lumbar spine fluoroanatomy and targets for interventional procedures (images and MCQ discussed) +US STATIONS - US scan of knee ankle	Workshop	Thais K. Vanetti, MD & US Faculty
2.40-3.40pm	Lumbar spine/hip anatomy, landmarking + US STATIONS - US scan of pelvis	Workshop	Agnes Stogicza, MD & US Faculty
3.40-4.10pm	COFFEE BREAK		
4.10-4.30pm	Cancer pain	Lecture	Arun Bashkar, MD
4.30-4.50pm	IT alcohol for cancer pain	Lecture	Arun Bashkar, MD
4.50-5.10pm	Sympathetic blocks: Lumbar symp, superior hypogastric, ganglion impar block	Lecture	Pranab Kumar, MD

DAY 3 & 4 - 8 & 9 OCTOBER

	CADAVER LAB		
	FLUORO		
	US
