## WELCOME

### LEADERS IN PAIN MANAGEMENT EDUCATION

It is with great pride that we welcome you to the PSI Reunion. Over the past decade, Pain School International has established itself as a global leader in pain management education.

Through a series of live courses, we have brought together more than 300 dedicated specialists from around the world to advance their skills, share knowledge, and build a stronger community of practice.

These courses have been more than training events; they have been opportunities for collaboration, innovation, and lasting professional relationships.

This reunion marks not only a celebration of what we have achieved together but also an invitation to look forward to new breakthroughs, deeper collaborations, and a continued commitment to excellence in pain education.

We are honoured to have you with us as we embark on this next chapter.
